1500 GRE VOCAB WORDS

For The Modern Test Taker

BY TEAM SACHIN PULLIL

How to use this list

Hello reader,

Thanks for choosing our vocabulary list!

This e-book will give you 1500 vocabulary words that you can use to begin your preparation for the GRE exam. First, they are given to you without meaning, then they are given to you with meaning.

The reason why we did it this way is to allow you to make your own handwritten flashcards for these words if you wish.

I am a big believer in handwritten flashcards as a vocabulary memorization tool. I used them in my GRE preparation and they helped me quickly remember hundreds of vocab words.

There are three main advantages to using handwritten flashcards:

1. They allow you to paraphrase the meaning of the vocab word in your own words. This helps you remember the words much better than if you memorize dictionary definitions. You can also shorten lengthy dictionary definitions to a few short words.
2. They allow customization. You can mark words that are especially difficult for you, note their multiple meanings, write them in a sentence, or none of the above! Totally up to you.
3. They allow you to focus on words that are difficult for you and let you ditch words you already know. This speeds up your vocabulary preparation immensely.

To find out how to make handwritten flashcards the right way, you should refer to our YouTube video on it [here](#).

Also, I HIGHLY recommend that you combine this vocab list with Secret #2 in our 6 Secrets to Dominate Your GRE Preparation webinar. You can register for the next session [here](#).

Is this vocabulary list enough for the GRE?

To be honest, it might not be. The GRE tests an extremely wide variety of words in the English language, so it's nearly impossible for any test taker to know all of the ones used in the exam. This also makes it difficult for any single vocabulary list to equip you with all the words you'll need for the exam.

However, this vocabulary list is pretty comprehensive and should prepare you for most of the words that you will encounter in the GRE.

As a rule of thumb, we recommend you to write down any word that you come across in a practice test or textbook that you don't know or is not covered in this list. Then, add that word to your flashcard list. This is what we like to call the "natural method" of growing your vocabulary.

That's all from me. Good luck for your test!
